Environmental, Social and Governance

- The board of directors is diversified, with female directors accounting for 14.3% and independent directors comprising 42.9% of its members.
- In 2024, we revised 'the Implementation Rules on Improving and Perfecting the Supervision System to Promote the Integration and Collaboration of Various Supervisions', improved 29 institutional mechanisms, established 14 long-term systems, and implemented 60 specialized enhancement measures.
- Initially formed a '1+N+X' disclosure framework, highlighting KunLun Energy's systematic thinking and responsibility for practicing high-quality sustainable development.

Environmental Protection

- The first release of **(The 2023 Climate Action White Paper)** established a 'governance-strategy-risk-metrices' four-dimensional closed-loop management system. Among them, 9 items of greenhouse gas emissions in 15 categories were disclosed for the first time, covering the upstream production, procurement, and transportation of resale goods, and waste disposal, etc. in Kunlun Energy's upstream and downstream value chain.
- ☐ Actively responded to the national and group company's methane emission control and management action plants, we released 《The Methane Emission Control Action Plan》, and strengthened target management and the implementation of emission reduction engineering construction.
- We released (The KunLun Energy Carbon Peaking and Carbon Neutrality Action Plan (2024 Edition)), integrating green and lowcarbon principles into the overall development strategy and the "14th Five-Year Plan Plan".
- Kunlun Energy has invested 57 photovoltaic projects in total. In 2024, the annual clean energy electricity generation reached 7.89 million kWh. In 2024, the company newly operationalized 33 distributed photovoltaic projects and obtained approval for equity participation in 6 gas-fired power projects.
- Completed the establishment of KunLun Energy's first independent contribution-type biodiversity conservation demonstration site.

Social Responsibility

- In 2024, RMB 1 billion has been allocated for safety hazard management projects.
- During the National Work Safety Month, we widely implemented the Safety Promotion and Consultation Day initiative, reaching an audience of over 10 million people.
- Published 《KunLun Energy Occupational Health and Safety Management White Paper (2024 Edition)》.
- In 2024, the total expenditure on consumer assistance programs reached RMB 22.25 million, with RMB 1.875 million donated to social public welfare initiatives such as rural revitalization and new rural construction.

CDPGrade CMSCI (1)Grade BBBS&P Global38 Scores

町一美丽 建设

- We ranked 31st in the 'China ESG Listed Companies Pioneer 100' list released by CCTV and 17th in the 'Central SOEs ESG Pioneer 50' ranking.
- Newly selected in 4 Hang Seng Stock Connect Hong Kong Indices, bringing its total inclusion to 25 indices – the highest among industry peers.
 - At the Hong Kong International ESG Awards, we received the 'Best ESG Pioneer Award' and 'Best Energy Conservation & Carbon Reduction Initiative Award'.
 - In international accolades by Institutional Investor, we achieved First Place overall in 'Asia's Most Admired Utilities Company', First place overall in 'Best Investor Relations Company', and First place overall in 'Best ESG in Energy Sector'.

Postscript '1+N+X': '1' refers to the annual ESG report; 'N' supplements this with multiple non-regular specialized sub-reports on specific topics; 'X' represents several annual realtime updates and specific disclosures on ESG developments.

Gas Power & New Energy Businesses 町福銀

Accelerating the pace of green & low-carbon transformation

- Acquired 5.6 million kilowatts of annual clean energy indicators.
- 15 gas power projects with a total installed capacity of 11.14 million kilowatts.

10 integrated energy projects in operation, with an installed capacity of 520 thousand Kwhs.

- 57 distributed photovoltaic projects constructed, with an installed capacity of 13.5 thousand kilowatts.
 - 7.89 million Kwh of annual power generated, supplied 6.25 million GJ of heat supply, achieving significant energy-saving and emission reduction effects.

Green & low-carbon development,

Taking solid steps in strategic emerging industrials

Focusing on creating service value across the entire industry chain

- Number of registered users of 'KunLun Huixiangjia+' platform reached 1.95 million, a yoy increase of 46 times, and the value of the integrated online and offline service platform is becoming increasingly apparent.
- In 2024, the "Kunlun Huixiang+" platform achieved sales of RMB 96.353 million, a yoy increase of 29.0%.
